# TRAFFIC ENGINEERING & CONTROL

## INDEX TO VOLUME 5

May, 1963—April, 1964

| | Month | Page |
|---|---|---|
| **A** | | |
| All-Weather Design for Lancashire-Yorkshire Motorway, Col. S. Maynard Lovell | Dec. | 472 |
| Amber Signal Light, Problem of the, R. Herman, P. Olson and R. Rothery | Sep. | 298 |
| Application of Statistical Methods to Traffic Surveys, C. B. Winsten and J. F. Connell | Apr. | 714 |
| Area Control by Digital Computer, V. E. Miller | Oct. | 359 |
| Aspects of Street Lighting, Granville Berry and W. Robinson | Dec. | 491 |
| Australian View of Street Lighting Practice, Granville Berry | June | 103 |
| Automatic Volume Survey Instruments, Heinz Schwarz | Dec. | 480 |
| Averaging of Road Traffic Measurements, E. J. Preston | Mar. | 656 |
| **B** | | |
| Beeching Report, Lessons from the, Wilfred Burns | Aug. | 254 |
| Behaviour of Traffic Leaving a Signalised Intersection, R. Herman, R. B. Potts and R. W. Rothery | Jan. | 529 |
| Bollards for Refuges, Design of, A. W. Christie | Feb. | 602 |
| Bracknell's O-D Survey | Mar. | 649 |
| Buchanan Report | | |
| —The Comprehensive Approach, A. G. McCulloch | Jan. | 524 |
| —Planning Comprehensive Transportation Studies, G. L. Drake | Feb. | 584 |
| —Buchanan in Practice—The Liverpool Plan, J. A. Proudlove | Mar. | 642 |
| —Implementing Buchanan—Short Term Policies, Peter Hall | Apr. | 702 |
| Burton upon Trent's Modernisation Scheme, J. P. Wain and D. W. G. Fretwell | May | 49 |
| **C** | | |
| Car Parking Design, J. A. Proudlove | May | 46 |
| Carriageway Markings and Edge Lining | Oct. | 380 |
| Census Points, Speed Measurements at Rural, Joyce Almond | Sep. | 290 |
| Commercial Traffic in London, Survey of, R. F. F. Dawson | Aug. | 246 |
| Computer, Area Control by Digital, V. E. Miller | Oct. | 359 |
| Computer for Traffic Signal Control, Toronto Installs All-Purpose Electronic, J. T. Hewton | Feb. | 589 |
| Computer, Simulation by Electronic Digital, T. Constantine | Apr. | 706 |
| Computer, Simulation of Traffic Behaviour on a Digital, R. D. Worrall | June | 86 |
| **D** | | |
| Design of Bollards for Refuges, A. W. Christie | Feb. | 602 |
| Development of Traffic Signals for Area Control, B. M. Cobbe | Jan. | 543 |
| **E** | | |
| Edge Lining, Carriageway Markings and | Oct. | 380 |
| Effect of 50 mile/h Speed Limit on Vehicle Speed, D. H. Blackmore and J. D. G. F. Howe | Dec. | 466 |
| Effect of Gradients on Saturation Flow at Traffic Signals, A. C. Dick | Sep. | 293 |
| Effect of Turning Vehicles on Traffic Flow through a Signal Controlled Junction, R. J. G. Archer, R. I. Hall and S. Eilon | Sep. | 295 |
| Engineering for Traffic Conference: | | |
| Programme and Synopses of Papers | May | 43 |
| Exhibition Preview | May | 57 |
| Second Exhibition Preview | June | 109 |
| Programme and Catalogue | July | i-xvi |
| Sir William Glanville Sums Up | Aug. | 232 |
| Exhibition Review | Aug. | 263 |
| Evolving Concept of Transportation Engineering, Norman Kennedy | July | 168 |
| Experimental Ice-Warning System, P. J. Williamson | Dec. | 477 |
| **F** | | |
| Flows and Speeds in Central London 1952-62, J. E. Eaton | Dec. | 468 |
| Freeways, Los Angeles Puts its Case for | Mar. | 652 |
| **G** | | |
| Geometric Alignment of Roads, Improving the, Prof. Dr.-Ing. habil B. Wehner | May | 28 |
| Goods Transport Survey, Oslo's, Viggo Johannessen | Mar. | 646 |
| Gradients on Saturation Flow at Traffic Signals, Effect of, A. C. Dick | Sep. | 293 |
| **H** | | |
| Halifax O-D Traffic Survey, J. M. Noble | June | 95 |
| **I** | | |
| Ice-Warning System, Experimental, P. J. Williamson | Dec. | 477 |
| Improving the Geometric Alignment of Roads, B. Wehner | May | 28 |
| Institution of Highway Engineers—Motorways in Worcestershire, W. R. Thomson | June | 99 |
| Instrumentation in Road Traffic Control, D. G. W. Mace | Dec. | 483 |
| Instruments, Automatic Volume Survey, Heinz Schwarz | Dec. | 480 |
| Instruments, Speed Survey, Heinz Schwarz | Feb. | 604 |
| Integration of Motorways in Urban Areas, T. E. H. Williams | Jan. | 547 |
| Interim Traffic Studies, K. P. Furness | Aug. | 243 |
| **L** | | |
| Lamp Posts, Peter Whitworth | Oct. | 373 |
| Lancashire-Yorkshire Motorway, All Weather Design for, Col. S. Maynard Lovell | Dec. | 472 |
| Lessons from the Beeching Report, Wilfred Burns | Aug. | 254 |
| Lighting Engineers in Conference | Nov. | 429 |
| Lighting George Washington Bridge, H. W. Wenson, Jr. and H. S. Lewis | July | 183 |
| Lighting in Adverse Weather, D. A. Schreuder | Apr. | 720 |
| Lighting Motorways in Continental Europe | Jan. | 555 |
| Lighting Research | Sep. | 311 |
| Liverpool Plan, The—Buchanan in Practice, J. Alan Proudlove | Mar. | 642 |
| Logical System for Traffic Planning, Rolf Ahlberg | Feb. | 595 |
| London Traffic Survey—Phase II, G. L. Drake | June | 80 |
| Los Angeles Puts its Case for Freeways | Mar. | 652 |
| **M** | | |
| Meters in the U.S.A., Creighton Peet | Aug. | 251 |
| Motorway Progress, J. G. Smith | July | 154 |
| Motorways in Worcestershire, W. R. Thomson | June | 99 |
| **N** | | |
| Night Driving Visibility, Kare Rumar | Feb. | 611 |
| Night Traffic Hazards, E. von der Trappen | Mar. | 667 |
| **O** | | |
| O-D Survey, Bracknell's | Mar. | 649 |
| O-D Traffic Survey, Halifax, J. M. Noble | June | 95 |
| Omission of the Red/Amber Period at Traffic Signals, S. J. Older | Nov. | 414 |
| Oslo's Goods Transport Survey, Viggo Johannessen | Mar. | 646 |
| **P** | | |
| People and Cities, Conference Report | Jan. | 551 |
| Ponteland Survey—Traffic Generated by Households, T. E. H. Williams, G. G. Dobson and H. W. T. White | July | 176 |
| Post War Lighting in Scotland, Howard Cape | Sep. | 315 |
| Practical Applications of Traffic Theories, J. G. Wardrop | Feb. | 607 |
| Predicting Future Travel, Thomas R. Davinroy, Tony M. Ridley and H. John Wootton | Oct. | 366 |
| Priorities for Road Improvement, D. J. Reynolds | Aug. | 240 |

| | Month | Page |
|---|---|---|
| Priority at Roundabouts, F. C. Blackmore | June | 104 |
| Problem of the Amber Signal Light, R. Herman, P. Olson and R. Rothery | Sep. | 298 |
| **Q** | | |
| Quo Vadis Traffic Engineering?—American Report, J. Al. Head | May | 40 |
| **R** | | |
| Relative Legibility Distances of Route Numbers and Place Names of Directional Signs, J. E. Ashwood | Mar. | 654 |
| Requirements for Traffic Surveys for Urban Planning, J. F. Connell | Apr. | 714 |
| Road Heating The Mound, I. G. Storey | Dec. | 475 |
| Roundabouts, Priority at, F. C. Blackmore | June | 104 |
| **S** | | |
| Safety Fences and Kerbs, V. J. Jehu | Jan. | 534 |
| Sampling Vehicles after a given Instant of Time, Joyce Almond | Nov. | 408 |
| Signs, Relative Legibility Distances of Route Numbers and Place Names on Directional, J. E. Ashwood | Mar. | 654 |
| Simulation by Electronic Digital Computer, T. Constantine | Apr. | 706 |
| Simulation of Traffic Behaviour on a Digital Computer, R. D. Worrall | June | 86 |
| Simulation of Traffic Conditions at an Uncontrolled T-Junction, J. M. Aitken | Oct. | 354 |
| Some Topical Aspects of the Traffic Problem, Sir William Glanville | May | 34 |
| Speed Measurements at Rural Census Points, Joyce Almond | Sep. | 290 |
| Speed Survey Instruments, Heinz Schwarz | Feb. | 604 |
| Speeds in Central London 1952-62, Flows and, J. E. Eaton | Dec. | 468 |
| Stockholm, Traffic Planning in, Some Guiding Principles, Sven Lundberg | Oct. | 350 |
| Street Lighting Practice, An Australian View of, Granville Berry | June | 103 |
| Street Lighting Section | | |
| Burton upon Trent's Modernisation Scheme, J. P. Wain and D. W. G. Fretwell | May | 49 |
| An Australian View of Street Lighting Practice, Granville Berry | June | 103 |
| Lighting George Washington Bridge, H. W. Wenson, Jr. and H. S. Lewis | July | 183 |
| Test Installations, Granville Berry | Aug. | 259 |
| Lighting Research | Sep. | 311 |
| Post War Lighting in Scotland, Howard Cape | Sep. | 315 |
| Lamp Posts, Peter Whitworth | Oct. | 373 |
| Lighting Engineers in Conference | Nov. | 429 |
| Traffic Signs Lighting | Nov. | 433 |
| Aspects of Street Lighting, Granville Berry and W. Robinson | Dec. | 491 |
| Lighting Motorways in Continental Europe | Jan. | 555 |
| Night Driving Visibility, Kare Rumar | Feb. | 611 |
| Night Traffic Hazards, E. von der Trappen | Mar. | 667 |
| Lighting in Adverse Weather, D. A. Schreuder | Apr. | 720 |
| Success of Traffic Pacers is Governed by Driver Speed Control Skills, Herbert J. Bauer | Nov. | 410 |
| Survey of Commercial Traffic in London, R. F. F. Dawson | Aug. | 246 |
| Symposium on Theory of Traffic Flow—Development of Traffic Signals for Area Control, B. M. Cobbe | Jan. | 543 |
| —Theory of Traffic Flow, D. J. Buckley | Nov. | 425 |
| Test Installations, Granville Berry | Aug. | 259 |
| **T** | | |
| Theory of Traffic Flow, D. J. Buckley | Nov. | 425 |
| Thoughts of an Architect-Planner Provoked by Recent Events, Sir William Holford | May | 38 |
| Time-Lapse Kinematography for Traffic Studies, T. Constantine | Mar. | 661 |
| Toronto Installs All-Purpose Electronic Computer for Traffic Signal Control, J. T. Hewton | Feb. | 589 |
| Towards an Amalgam of Town and Traffic Planning, Colin Buchanan and Geoffrey P. Crow | May | 36 |
| Traffic and Safety Research 1962 | Sep. | 305 |
| Traffic Assignment Studies, R. Hodgen | Apr. | 710 |
| Traffic Engineering and the Highway Engineer, D. E. Dyas | July | 171 |
| Traffic Engineering Group: | | |
| Priority at Roundabouts, F. C. Blackmore | June | 104 |
| Integration of Motorways in Urban Areas, T. E. H. Williams | Jan. | 547 |
| Practical Applications of Traffic Theories, J. G. Wardrop | Feb. | 607 |
| Traffic Assignment Studies, R. Hodgen | Apr. | 710 |
| Application of Statistical Methods to Traffic Survey, J. T. Duff, F. Garwood, C. B. Winsten and J. F. Connell | Apr. | 714 |
| Traffic Engineering, Quo Vadis?—American Report, J. Al. Head | May | 40 |
| Traffic Engineering Study Week | Apr. | 719 |
| Traffic Flow Models, R. T. Underwood | Apr. | 699 |
| Traffic Flow, Theory of, D. J. Buckley | Nov. | 425 |
| Traffic Funnels, P. B. Ellson | Apr. | 694 |
| Traffic Generated by Households, Ponteland Survey, T. E. H. Williams, G. G. Dobson and H. W. T. White | July | 176 |
| Traffic Management in the U.S.A., Sir Alex Samuels | Dec. | 464 |
| Traffic Management Principles and Functions, Neville Borg | July | 164 |
| Traffic Measurements, Averaging of Road, E. J. Preston | Mar. | 656 |
| Traffic Pacers is Governed by Driver Speed Control Skills, Success of, Herbert J. Bauer | Nov. | 410 |
| Traffic Planning for Expanded Towns, Norman Jenner | July | 158 |
| Traffic Planning in Stockholm—Some Guiding Principles, Sven Lundberg | Oct. | 350 |
| Traffic Signs Lighting | Nov. | 433 |
| Traffic Studies, Interim, K. P. Furness | Aug. | 243 |
| Traffic Studies, Time-Lapse Kinematography for, T. Constantine | Mar. | 661 |
| Traffic Survey, Halifax O-D, J. M. Noble | June | 95 |
| Traffic Survey, London, Phase II, G. L. Drake | June | 80 |
| Transportation and the Regional City, Edinburgh Conference, Peter Brigham | Aug. | 252 |
| Transportation Engineering, Evolving Concept of, Norman Kennedy | July | 168 |
| Transportation Studies, Planning Comprehensive—The Buchanan Report, G. L. Drake | Feb. | 584 |
| TV Aids Traffic Control, Heinrich Martin | June | 91 |
| **U** | | |
| Urban Traffic Planning, J. M. Harwood and V. E. Miller: | | |
| 1. The Traffic Planning Programme | Nov. | 418 |
| 2. Analysis | Dec. | 486 |
| 3. Expansion Factors and Trip Generation | Jan. | 541 |
| 4. Predictions | Mar. | 659 |
| Using Traffic Data to Deduce Patterns of Behaviour, C. B. Winsten | Apr. | 714 |
| **W** | | |
| Worboys Report, Kenneth Summerfield | July | 150 |
| Work for the Traffic Engineer, Rt. Hon. Ernest Marples | May | 26 |

# INDEX TO AUTHORS

| | Month | Page |
